DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 19 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Gileta (5,113,882). Gileta discloses dehumidifying and heating air to obtain drying air having a high temperature and low moisture ; passing a portion of the drying air through the circuit to bring the portion of the drying air into contact with the subject; passing another portion of the drying air through a bypass circuit, the bypass circuit being arranged to avoid the another portion of the drying air from coming into contact with the subject; and mixing the portion of the drying air brought into contact with the subject and the another portion of the air passed through the bypass circuit to obtain the air (col. 4, lines 22-42, col. 5, lines 20-25).

Allowable Subject Matter

Claims 1-18 are allowed.

Claim 21 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
